ABOUT NITECORE

With the industry-leading innovative power for 13 years, NITECORE is the first brand to achieve a grand-slam milestone in the industries of professional lighting and chargers to receive the German iF Design Award, Red Dot Design Award, the Japanese G-Mark (Good Design) and the American IDEA, as well as Gold Winners of the ISPO Award and Outstanding Outdoor globally recognized in the outdoor industry. We specialize in product lines varying from tactical flashlights to outdoor lighting equipment and power solutions specially designed for law enforcement and military departments, industrial corporations and outdoor enthusiasts worldwide. Our partners include Tor des Géants, HK100, Rio 2016 Summer Olympics in Brazil and Supreme. Operating in full compliance with ISO9001 and qualified as China's High and New Technology Enterprise (HNTE), NITECORE and its factories have set the most exacting production and testing standards to ensure quality and performance. Our products have gained multiple certifications including CE, RoHS, FCC, CEC, REACH, KC, C-TICK and more. All batteries and chargers are globally insured by Ping An Insurance Group.

PRODUCT AWARDS

Established in 2007, Nitecore has long been at the forefront of technological advancement in portable illumination. Through its tremendous research and development capacity, Nitecore has become the first brand in the professional lighting and illumination industry to receive all four grand international design prizes including the American IDEA, the German iF Design Award, Red Dot Design Award and the Japanese G-Mark (Good Design), in addition to the worldly famous ISPO Award in the outdoor industry. Nitecore products are internationally recognized in over 100 countries.

STROBE READY™

In law enforcement, the strobe flashlight for self-defense is used on potential suspects who may present a danger but are not lethally armed. The strobe light is disorienting to the person it is aimed at which makes it difficult for them to concentrate. Also, they avert their eyes away from the strobing effect. This means it is easier for the police to subdue successfully and control the suspect.

- 1 Specially designed for tactical applications to enable a quick access to STROBE Mode (Patent No.: ZL201320545349.4)
- 2 Inset pedal design to avoid accidental activation (US Patent No.: 15/846299 US10237955B1)

2nd Generation STROBE READY™ Technology

STROBE READY™ Models:
P10 V2, P20UV, P20 V2, P22R, i4000R, C17

ADVANCED RANDOMLY CHANGING STROBE MODE

The randomly changing frequencies available in the STROBE Mode of latest NITECORE models can cause stronger dizzying effects due to the inadaptability of the naked eyes.

Models with Randomly Changing STROBE Mode:
NEW P12, P12GTS, P18, P22R, i4000R, C17, MH12GTS, MH12 V2, MH25GTS

ULTRAVIOLET & INFRARED

The UV light has shorter wavelengths than visible light, and is also known as black light. Ultraviolet LED flashlights are useful in many applications, including identifying forged documents, tracing marked bills, leakage/grease inspection, sanitary check, hunting scorpions etc. The IR light is with wavelengths longer than those of visible light. Extensive uses for military and civilian applications include target acquisition, surveillance, night vision, homing, and tracking.

Ultraviolet Models: P20UV, CU6, MH27UV, THUMB LEO, TIKI
Infrared Models: CI7, NU05 MI

TURBOREADY™

NITECORE aims to lead a trend of new tactics with the TurboReady™ technology to enable an instant dazzle strike with a blazing tactical output, in order to produce an abrupt disturbance to your adversary during the day or at night.

NITECORE TurboReady™ Models: TM9K

Tactical Lighting

Tiny Monster Series

All of our groundbreaking Tiny Monster models have thoroughly changed the way people think about portable lights, and more importantly, what they actually carry and use. Created for search and rescue as well as outdoor adventures, our Tiny Monster series is now employed in countless professional applications where bright lighting is needed.

Precise Series

NITECORE Precise Series flashlights are highly innovative illumination tools purpose-designed for law enforcement, hunting and tactical applications. With incredible user-interface design, these lights allow easy access to all modes and brightness levels. With blazingly bright output in TURBO/STROBE mode, exceptionally long runtimes in LOW mode and unique gun-mounting functionality, the Precise Series flashlights are the ultimate lighting tools for increased tactical effectiveness.

► P10 V2

INDEPENDENTLY CONTROLLED QUADRUPLE LEDS

Powered by a constant current circuit to provide a durable usage with guaranteed safety.

Chameleon Series

The Chameleon series is yet another unique and innovative offering from NITECORE. Featuring two groups of LEDs and an easy switching mechanism, the latest C17 can provide an ultra high output for each group while bringing unlimited possibilities for our flashlight design. Simply push the head outwards and rotate the head clockwise or counterclockwise to switch between the beams. The industry-leading design of the Chameleon series is another proof of NITECORE's capacity for innovation.

Signal Lights

The NITECORE Signal Lights include the newly designed NU05 LE / NU05 MI which can be attached to the helmet in special operations or in quick deployments. The flashing colors and even IR modes when combined with night vision devices are able to indicate different grouping or to enable quick identification on team members of specific positions. The hook-and-loop attachment on the back ensure a firm and secure attachment to the helmet while they can also be easily clipped to the standard MOLLE system of a body armor or a backpack.

Helmet Lights

The NITECORE Helmet Lights are specially designed for law enforcement, military, firefighting, search and rescue. The newly released HC60M and HC65M are equipped with a quick detachable NVG mount based on our award-winning headlamp design, while the NU32 features an ultra lightweight design to ease the burden of wearing or mounting.

► Tactical Ring Pro

The NTR10 is a tactical accessory to enable a unique and flexible way of carrying or operating a flashlight. It can be mounted on the specially designed slots of the latest NITECORE tactical flashlights according to the size of the user's hand.

NTR10

NTR10 Operation Guide

1 Compatible with NITECORE tactical holsters to enable a quick and precise operation of the flashlight

2 Used as a tactical striking knuckle when mounted on a flashlight

3 Dual ways of quick detachment to prevent pressure to the fingers

4 Create your unique and flexible way of carrying a flashlight

5 Strengthen your grip to avoid accidental harm to your wrist

► Tactical Remote Switch

Noiseless pressure pad switch capable of accessing momentary-on and constant-on illumination, professional and convenient operation making it ideal for law enforcement, hunting and more scenarios.

RSW1/RSW1-1 fits flashlights with tail diameter of 1 inch, capable of accessing momentary-on and constant-on illumination.
 RSW2 fits P10 V2, P20UV and P20 V2, capable of accessing STROBE READY™ and changing brightness levels as well as momentary-on and constant-on illumination.
 RSW2D fits MH12GTS, MH25GTS, CI7 and P22R, capable of accessing STROBE READY™ and changing brightness levels as well as momentary-on and constant-on illumination.
 RSW3 fits NEW P12, NEW P30 and MH12 V2, capable of accessing momentary-on and constant-on illumination.

Body Armor and Packs

► **MBBL01**

Lightweight Plate Carrier (Water Resistant Version)

Features

- + 500D Nylon with TPU water resistant coating
- + High frequency welding for excellent water-resistant performance
- + Laser-cut MOLLE System
- + Size readjustment device on the back
- + Ballistic plates and inserts available
- + Modular waist panel design
- + Upper back retractable life-saving handle
- + Back area quick storage system
- + Compatible with tactical belts and assault backpacks

Design

The MBBL01 is a lightweight plate carrier featuring outstanding water-resistant performance with a laser-cut MOLLE System for modular extensions, specially designed for naval military operations including sea patrols and amphibious battles. The quick storage system between the bulletproof vest and the backpack is designed to avoid interference with the shooting accuracy.

► **MBBG01**

Lightweight Assault System (LAS) Intermediate Laser-cut Vest

Features

- + Austrian Cobra quick-release buckles
- + Laser-cut MOLLE System
- + Life-saving rescue and dragging system
- + Replaceable unibody shoulder pads
- + Fast Switching System (FSS) on the waist and back areas
- + Innovative Modular Hook System (MHS) for quick readjustment

Design

The MBBG01 is the intermediate laser-cut vest of the Lightweight Assault System (LAS) designed for security guards, patrols, border control officers and peacekeeping forces. Optimized to tactical movements of the users, it greatly increases the ergonomic comfort by the 3-dimensional cutting design. Compared to the lightweight body armor, it is equipped with a soft protective layer to greatly increase the protective area.

► MBP15L

15L Modular Assault Backpack

Features

- + 1000D Nylon
- + Laser-cut MOLLE System
- + YKK waterproof zippers
- + UTX Mojave buckles
- + Carrying system with EVA foam
- + Straw hole on the top
- + Interfaces for tactical electronic devices
- + Concealed rain cover included

Design

The MBP15L is a 15L (915.4 cu in) modular assault backpack with a rounded body design and concealed zippers to avoid being hooked in the jungle areas. It is available for independent uses and compatible with body armor and plate carriers.

Features

- + Austrian Cobra quick-release buckles
- + Laser-cut MOLLE System
- + Air Flow Liners (AFL) for rapid sweat evaporation and quick dry
- + Fast Switching System (FSS) on the waist and back areas
- + Innovative Modular Hook System (MHS) for quick readjustment

Design

The MBBL05 is the summer hollow vest of the Lightweight Assault System (LAS) designed for universal usage of law enforcement and military operations, featuring quick release, quick dry, enhanced offensive and defensive performance. Optimized to tactical movements of the users, it greatly increases the ergonomic comfort by the 3-dimensional cutting design. The large hollow design also achieves an excellent cooling performance.

- + Detachable shoulder straps

► **MBG01**

Tactical Chest Bag

Features

- + Specially designed for military training and daily duty
- + Laser-cut MOLLE System
- + YKK waterproof zippers
- + UTX Mojave buckles
- + Hook-and-loop areas

► **MBG02**

Extended Rifle Magazine Pouch

Features

- + Laser-cut unibody design
- + Elastic cord linking
- + Multiple rifle mag sizes compatible
- + Universal and quick draw modes available

► **MBG03**

Quick Draw Rifle Magazine Pouch

Features

- + Laser-cut unibody design
- + Elastic cord linking
- + Multiple rifle mag sizes compatible

► **MBG04**

Pistol Magazine Pouch

Features

- + Laser-cut unibody design
- + Elastic band linking
- + Multiple pistol mag sizes compatible
- + Tactical flashlights and multi-tools compatible

▶ **MBG05**

Dual Pistol Magazine Pouch

Features

- + Laser-cut unibody design
- + Elastic band linking
- + Multiple pistol mag sizes compatible
- + Increased functionality and carrying compatibility

▶ **MBG06**

Quadruple Rifle Magazine Pouch

Features

- + Specially designed for military training and special forces operations
- + Laser-cut design
- + Available for independent uses and compatible with body armor and plate carriers
- + Enables quick draws for requirements of shooting sports

▶ **MBG07**

Octuple Chest Rig Pouch

Features

- + Specially designed for military training and special forces operations
- + Laser-cut design
- + UTX Mojave buckles
- + Detachable back strips
- + Available to carry 4 x rifle magazines, 2 x pistol magazines, 1 x walkie-talkie, 1 x compass, 1 x gadget

Features

- + Laser-cut unibody design
- + Elastic band linking
- + Multiple walkie-talkie sizes compatible

▶ **MBG10**

Radio Pouch

Features

- + Laser-cut unibody design
- + Elastic band linking
- + Multiple sizes of radio communication equipment compatible

▶ **MBG11**

Medical Pouch

Features

- + 1000D Nylon
- + Laser-cut MOLLE System
- + Interior and exterior hook-and-loop design
- + Two user modes including Tactical Mode and Duty Mode available
- + Elastic band and paracord compatible

▶ **MBBC01**

Inner Bulletproof Vest

Features

- + Elastic and breathable materials
- + Tactical cutting techniques
- + 3-side size readjustment
- + Laser-cut hook-and-loop areas
- + Frontal Fast Switching System (FSS) for LAS accessories

Apparel

▶ **MAAB01**

Short Sleeved T/B

Fabric Weight

80 GSM (2.4oz/yd²)

Applicable Temperature

10°C-38°C (50°F-100.4°F)

Design

The MAAB01 is a short-sleeved suit made by anti-UV yarn combined with waterproof materials with anti-hook, anti-pilling and anti-static features. It has a breathable and quick dry design for the ergonomic comfort in vigorous movements.

▶ **MAAB03**

FR Aramid Long Sleeved T/B

Fabric Weight

120 GSM (3.5oz/yd²)

Applicable Temperature

10°C (50°F)

Design

The MAAB03 is an aramid long sleeved suit specially designed for military operations. It is soft and comfortable with flame retardant, heat resistant and antistatic features.

▶ **MAAB02**

Long Sleeved T/B

Fabric Weight

150 GSM (4.4oz/yd²)

Applicable Temperature

10°C (50°F)

Design

The MAAB02 is a long-sleeved suit featuring one-way-dry, bacteriostatic, antistatic, anti-UV techniques. Specially designed for cold environments, it has a loose and comfortable design suitable for daily wearing.

▶ **MAAB04**

FR Polyimide Long Sleeved T/B

Fabric Weight

180 GSM (5.3oz/yd²)

Applicable Temperature

0°C (32°F)

Design

The MAAB04 is a polyimide long sleeved suit specially designed for military operations. It is soft and comfortable with excellent flame retardant, bacteriostatic and thermal performance.

▶ **MAAT04**

Summer Duty Uniform T/B

Features

- + Breathable, waterproof and quick dry materials
- + High strength elastic and wearproof techniques
- + Joint protection design
- + 3-dimensional cutting
- + YKK zippers
- + UTX buckles

Design

The MAAT04 is a summer duty uniform specially designed for military training and operations. With a superior modular design of simplicity and ergonomics, it is convenient to be readjusted and stored while also suitable for daily outdoor wearing.

▶ **MAAT06**

Spring/Summer Combat Uniform T/B

Features

- + High strength and wearproof Nylon
- + High quality cotton camo
- + Fire retardant, waterproof and wearproof materials
- + Adjustable protective insets for elbows and knees available
- + Tactical cutting design
- + Breathable channel system

Design

The MAAT06 is a spring/summer combat uniform with multiple versions including Universal Version, Hot Climate Version and Special Forces Version. With a modular design, it guarantees the mobility of the wearer with basic protection, excellent heat dissipation and quick dry performance in vigorous movements.

▶ **MAAT05**

Summer Combat Uniform T/B

Features

- + Lightweight, elastic, quick dry and anti-hook Nylon
- + Waterproof, wearproof and one-way-dry materials
- + Soft shell materials
- + Joint protection design
- + Hook-and-loop areas
- + Zippered arm pockets for go-to gadgets

Design

The MAAT05 is a lightweight summer combat uniform specially designed for operations in hot environments. With a superior modular design, it greatly improves the flexibility and breathable performance while offering an outdoor protection for the joints of the wearer.

▶ **MAAT07**

Fall/Winter Combat Uniform T/B

Features

- + Intermediate high strength Nylon
- + High quality anti-IR cotton camo
- + Adjustable protective insets for elbows and knees available
- + Multifunctional zippered pockets
- + Tactical cutting design on top
- + 3-dimensional cutting design on bottom

Design

The MAAT07 is a fall/winter combat uniform specially designed to provide protection and camouflage for operations in harsh environments. With multiple tactical designs, it greatly increases the efficiency of the wearer with large carrying capacity, ultimate flexibility and breathable performance.

▶ **MAAI01**

Short Fleece

Fabric Weight

200 GSM (5.9oz/yd²)

Applicable Temperature

0°C (32°F)

Design

The MAAI01 is a lightweight short fleece suit designed to keep warm in military operations, featuring windproof, breathable and excellent thermal performance.

▶ **MAAI02**

Long Fleece

Fabric Weight

260 GSM (7.7oz/yd²)

Applicable Temperature

-10°C (14°F)

Design

The MAAI02 is a strengthened long fleece suit designed to keep warm in military operations, featuring windproof, breathable and excellent thermal and compressible performance.

▶ **MAAI03**

FR Polyimide Fleece

Fabric Weight

360 GSM (10.6oz/yd²)

Applicable Temperature

-15°C (5°F)

Design

The MAAI03 is a polyimide fleece suit designed to keep warm in military operations. With a heat resistance of 400°C (752°F), it is soft and comfortable with excellent flame retardant, windproof, breathable and thermal performance.

▶ **MAAI04**

Soft Shell Fleece Coat

Fabric Weight

150 GSM (4.4oz/yd²)

Applicable Temperature

0°C (32°F)

Design

The MAAI04 is a soft shell fleece coat made by elastic materials with waterproof coating, featuring excellent, flame retardant, waterproof and thermal performance.

▶ **MAAS01**

Soft Shell Combat Coat

Fabric Weight

240 GSM (7.1oz/yd²)

Applicable Temperature

0°C (32°F)

Design

The MAAS01 is a soft shell combat coat specially designed for military operations in harsh environments, featuring excellent waterproof, breathable and windproof performance.

▶ **MAAS03**

Warm Parka T/B

Fabric Weight

200 GSM (5.9oz/yd²)

Applicable Temperature

-30°C (-22°F)

Design

The MAAS03 is a warm parka with the new nanofoam inset to provide a better dynamic thermal and waterproof performance compared to the ordinary velvet.

▶ **MAAS02**

Hard Shell Trench Coat T/B

Fabric Weight

228 GSM (6.7oz/yd²)

Applicable Temperature

-17°C (1.4°F)

Design

The MAAS02 is a hard shell trench coat specially designed for the harsh environments, featuring excellent waterproof, breathable, windproof and thermal performance with one-way-dry technique.

▶ **MAAS04**

EX Warm Parka T/B

Fabric Weight

200 GSM (5.9oz/yd²)

Applicable Temperature

-35°C (-31°F)

Design

The MAAS04 is an EX warm parka with the new nanofoam inset to provide a better dynamic thermal and waterproof performance compared to the ordinary velvet. It also has an excellent moisture proof feature and maintains more 90% of its warmth even in extremely humid environments.
